JENIFER J

Web Developer | React.js Developer | 2027 Graduate

Panagudi, Tamil Nadu | +91 8220330450 | jenijenifer483@gmail.com | linkedin.com/in/jeni-jenifer-b75a54299

PROFESSIONAL SUMMARY

Web Developer (B.Tech, 2027 batch) with 6 months of freelance experience building, testing and deploying four live, responsive React.js web applications for business and retail clients. Strong fundamentals in HTML5, CSS3 and JavaScript, with working knowledge of Node.js, Python (Django, Flask), REST API integration, SQL databases, Git and GitHub. Experienced across the software development lifecycle, from implementing user-facing features to production deployment. Open to relocate to Bengaluru and work on-site.

TECHNICAL SKILLS

Front-End Technologies: HTML5, CSS3, JavaScript, React.js, Responsive Web Design, Chart.js, GSAP, WebGL

Back-End and APIs: Node.js, Python, Django, Flask, REST APIs, Object-Oriented Programming

Databases: MySQL, SQLite, PostgreSQL, SQL

Version Control and Deployment: Git, GitHub, Vercel, Web Deployment

AI and Data: scikit-learn, spaCy, NLP, TF-IDF, Cosine Similarity

Tools and Practices: VS Code, Figma, Canva, Debugging and Troubleshooting, Software Development Lifecycle (SDLC)

WORK EXPERIENCE

Web Developer (Freelance) | Business and Retail Clients | 6 Months

- Designed, developed and maintained four responsive React.js web applications for business and retail clients, from implementation through production deployment.
- Implemented user-facing features using HTML5, CSS3, JavaScript and React.js, delivering layouts that adapt across desktop and mobile screens.
- Managed end-to-end web deployment and post-launch troubleshooting for company and retail use cases.

Live websites: sd-kindustries.vercel.app | srinavaindustries.com | outfitforyou.com | filmaking.vercel.app

PROJECTS

AI-Powered Resume Analyzer and Job Matcher | Python, Django, HTML, CSS, JavaScript, Chart.js, SQLite, PostgreSQL,scikit-learn

- Developed a full-stack Django web application that analyzes PDF and DOCX resumes, extracts technical skills using NLP, calculates job compatibility scores, identifies skill gaps and recommends jobs.

Online Complaint Management System | Flask, SQLite, HTML, CSS, JavaScript

- Built a full-stack complaint management web application using a Python Flask backend and SQLite database.
- Connected browser-based interfaces built with HTML, CSS and JavaScript to the backend workflows.

Smart Nurse: AI-Powered IoT Patient Monitoring | Python, Flask, React, REST APIs

- Developed a patient monitoring web application with a React interface and REST API endpoints.
- Integrated IoT sensor data and a Random Forest model into the application.

Blockchain-Based Money Transfer System | HTML, CSS, JavaScript, Ganache

- Developed a cryptocurrency money transfer web application with a browser-based front end.
- Connected the application to a local Ganache blockchain development environment.

INTERNSHIP

Web Development Internship Training | NSIC Technical Services Centre, Chennai | June 2025

EDUCATION

B.Tech, Artificial Intelligence and Data Science | Rohini College of Engineering and Technology, Kanyakumari

Expected Graduation: 2027 | CGPA: 8.34/10

Relevant coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Cloud Computing

CERTIFICATIONS

Python Full Stack Development, Networkz Systems (Mar to May 2026)

UI/UX Design, EDU TANTR Ventures (2026)

Ignite Bootcamp, Wadhwani Foundation (Mar 2026)

AI and ML Development Program, Entudio (Mar 2025)
